Harry Judd, Thirteenth street, between Ohio and Tennessee, frame building, \$600.
Assistant Sewer Inspector Joe M. Stallings has purchased property and is building him a house in Mechanicsburg.

HOUSE BREAKING CHARGE.
But It Turned Out To Be A Breach Of The Peace.

Clark Muse, colored, was arrested last night on a charge of housebreaking. He went to the home of a woman and forcibly took out a trunk that did not belong to him. He was arrested for housebreaking, but when Judge Sanders this morning heard the evidence, it showed that he had merely committed a breach of the peace and was fined \$10 and costs.

GOEBELISM IS DENOUNCED

LEXINGTON, Ky., August 17.—The anti-Goebel convention last evening completed its work and is now a part of the political history of the state. The delegates have all about departed and the several thousand worthy Democrats yesterday on the streets of this city are now well along toward if not already at their homes to tell the people of the convention's good work and the delight of all parties over the result.

The noon impression yesterday was that about 1,500 people would attend the convention, but this number had been all but doubled by the hour set for the convention to open—2 o'clock. Not less than 5,000 people were present and all conservative observers. These represented 110 of the 110 counties of the state and among the "crowd," as stated, were many war horses. The stage of the convention hall was made doubly conspicuous by the jam and the character of the membership.

The body got to work at the hour set. Order was called by the venerable Colonel Phil Thompson, who said he acted for the chairman, Hon. F. V. Johnston, who was too ill to be present, and he did so in a ringing talk, saying those present had gathered to rebuke fraud, tyranny, and bossism. He elicited the greatest applause and started the ball to rolling with great enthusiasm. Prof. J. B. Thrubbs, of the Kentucky university followed Mr. Thompson with a similar speech, and then the convention was announced as ready for business.

DREYFUS CASE

Was Made Somewhat Brighter Today By The Testimony of Witness Picquart

DECLARED THE ACCUSED

Could Not Have Known the Information He Is Said to Have Given Away and

PROMISES TO TELL MORE FACTS

RENNES, France, Aug. 17.—Today was the first time the court martial listened to any testimony from Dreyfus in connection with his case. Picquart and Bernius, two of the examining magistrates, both gave grounds for belief in the accused's innocence this morning. Roger finished his testimony cut short by yesterday's adjournment. The testimony was nothing but a long speech. It dealt with a long argument with Denange, the witness being one of his assistants.

DEATH OF W. P. VENABLE.

Mr. W. F. Venable, one of the oldest and best known citizens of Paducah, died this afternoon about 3 o'clock at the residence of his daughter, Mrs. Veal, on North Sixth street, near the dogwood factory, from general debility, after an illness of several months. The deceased was about 70 years old, and for years had lived in Paducah, and been one of her best citizens. He leaves two children, Mrs. Frank M. Fisher and Mrs. Veal, both of the city. No funeral arrangements have been made.

SUIT FOR SETTLEMENT.

Peter W. Roche, as guardian of Earl Pugh, today filed a suit to settle an estate. The suit was filed in the circuit court.

BADLY HURT.

One of the City's Gravel Spreaders Gets Run Over.

Last winter an old darkey, half frozen but still smiling through the frost, applied at the city hall for provisions and fuel. He gave the name of Dave Rawls, and Marshal Collins jokingly told him if he wanted to eat he must work, and that he could go down on the city's coal barge and shovel coal into the wagons that were delivering it to the poor.

WANTS IT WITHDRAWN.

The city has for the past three years had a suit pending in the circuit court against Mr. Dick Allen for right of way over about sixteen feet of his property near the city post house. Mr. Allen now wants the suit withdrawn, and agrees in return to give the city the same number of feet of his land in another place, more desired by the city, on condition that the suit is withdrawn. Mayor Lang will recommend the withdrawal at Monday's meeting of the council.

THURSDAY, AUGUST 17, 1899

The mass of Christians make a little dark world of their own, and live there. They build the walls of their houses out of their troubles and sorrows. They keep the doors locked. It is all dark about them. No sunshine comes into their chambers, and no fire burns on the hearth. They have no pictures on their walls but the pictures of their dead joys. And there they live, from year to year, in gloom and sadness, because they do not let that sunshine in. I trust many persons who can talk for hours of their troubles, sorrows and cares, who seem to forget that God ever made a flower, or a star, or a sunbeam, or did a single kind, tender thing for them.—J. R. Miller.

By the end of this week at the latest it is expected that the president will issue the order for the enlistment of additional regiments of volunteers for service in the Philippines, or to take the place of troops now in this country who will be sent to the far west. In anticipation thereof, the war department is hurrying preparations for the enlistment and equipment of whatever force the president may authorize.

Manufacturers of gas in the gas belt are preparing to manufacture on a large scale glass pipes for use instead of the iron piping for water and gas mains and various other conduits. Recent investigations have shown that it requires about three years for electricity to entirely ruin the iron pipes laid in a street along which a trolley line runs, and it is estimated that within the next five years the piping in all the large cities will be practically destroyed.

Mr. Blackburn fully deserves the "black" eye he got yesterday at the hands of the Lexington convention. His cooperation with the Goblet wing of his party is enough to damn him in a political sense with any people. He merits only the severest rebuke and can't get it any too harsh.

Democracy had not only its eyes upon but its ears turned toward Lexington yesterday. What it saw and heard was very pleasant to those who love their party for the enemies it has made and are patients from previous pain and not for office. These have no known taste in their mouths this morning, but a gladness in their hearts which was shown on their faces. Everywhere they could be heard rejoicing that now they could vote without hitting their heads in shame.

The Republicans will sharpen their weapons for the Brownies from now on instead of the Goblets. It is clear the Brownies are the opponents the Republicans will have to defeat. The Goblets are clearly not to be in the November contest.

In 1890 this country exported of manufactures \$151,102,376, and in the fiscal year just ended her exports of manufactures were \$338,667,114. In the same period the imports of manufactures decreased nearly a hundred million a year. Great is the industry and prosperity of this country.

The report that British capital will soon control Cuba and Porto Rico is not alarming to Americans. Since the war of 1898 Spain money from all the European countries has been pouring into both those islands. The reason for this, of course, has been the exemption throughout the world that Cuba would become American territory.

Before the end of the week a cargo of American relief supplies will be in Porto Rico and the people will realize that the new order of things means prompt aid in case of calamity.

Ex-Congressman McCreary, when in congress, was anxious to be recognized as the spokesman of the Cleveland administration, and he circulated freely his financial speeches, showing him in entire accord with Cleveland and Campbell. Mr. McCreary is now an advocate of Goblet and the Louisville Populist platform. The ex-governor is no doubt in the hunt for more pie, but he won't get it by the route he has chosen.

If New York should get the democratic convention of 1900 there would be some chance for Van Wyck to secure the candidacy. But New York has small show of getting the convention.

Has Bryan heard from Lexington and is he still determined to come into Kentucky to monkey with the political buzz saw with which he is certain to come in contact? If so he should have a guardian appointed forthwith.

Governor Roosevelt, of New York is to open the political campaign in Ohio this fall for the Republicans. He and George K. Nash, Republican candidate for governor, are to speak from the same platform in Akron September 23. The selection of Roosevelt has revived the rumor that he will take Hobart's place on the next national ticket.

AFTER GUS

Gobel Delegate Louisville Convention Gives Away a Secret.

A Dishonored Draft for Services Rendered Was Not Paid When Presented.

Louisville Post, 16th: The 14th patch this morning tells in plain words the story of a transaction which is said to have taken place during the convention held here in June, which nominated William Gobel for governor. It is the story of an alleged deal whereby the regular delegates from Campbell county, who were for Harbison, were induced in favor of men who had no cashy claim to sit in the convention, save that they would do Gobel's bidding. Those delegates, after being seated, are said to have entered into an agreement with Gus Conter, candidate for auditor on the Gobel ticket, whereby the twenty-two votes of Campbell county should be cast for him in the race for auditor in consideration of \$100. This money was not paid during the convention. Conter, it is claimed, gave an order for a sight draft. The draft was drawn July 5, but was not honored.

In connection with the story are printed affidavits from Ed J. Huber and John C. Bradley, who say they were parties to the deal; also the affidavit of the auditor for the draft and the dishonored draft itself.

This accusation is made in form so legal and in terms so specific that Mr. Conter will have to answer. "Mum's the word," was the order issued before the convention adjourned, consequently the Gobel organs and orators insist on a campaign against the Louisville & Nashville and on the one question, "If Bryan should come to Kentucky, what?"

But Mr. Conter desires to be the fiscal officer of the Commonwealth, and he cannot afford to be silent under this accusation. He must answer promptly and completely. Mr. Huber was a man of enough importance to be put in the convention on Gobel's order, he must know some thing of Gobel's secrets.

Mr. Conter has the floor, and 600, 000 Kentuckians wait to hear from him.

This expose follows on the heels of one made by the Evening Post yesterday based on affidavits from the regular delegates of the English third legislative district of Campbell county. After these delegates had been seated for two days Judge Hoag Gobel's agent, brought down a one testing delegation. He told the regular delegates that if they would vote to oust the delegation from the English fourth district they would keep their seats, otherwise they would be ousted. Judge Hoag was informed that the vote of the delegation would be cast against the meeting of the English fourth district delegation. The English third district delegation, by order of Senator Gobel, was then unseated. It had been legally so seated and there was no question of it being the regular delegation. This piece of convention work was shown up in affidavits of John Stahl, the regular chairman of the English third district, of Louisville; G. T. Laver, Joseph Kroum, Joseph A. Gaskin, Daniel Weber, J. B. Ellis and John C. Stevens.

George Gould Spelt Too.

Little George is a sweet-faced, innocent, intelligent child, who belongs to a family in Rhode Island and is about to celebrate his first birthday and as he sat on the floor playing with his blocks the other afternoon his elders talked over his head about the presents they intended to give him on the occasion. They spelled out the words they did not wish him to understand, for little George is too young to know how to spell. "I think," said a doting aunt, "that I'll get a wooden horse." Little George looked up, his angelic face alight with a smile of seraph sweetness. "Auntie," he said, "if you get me a horse I hope you'll get me a team to go with it."

Wanted to Be Accommodating.

In one of the hospitals in the south last summer a busy looking, duty loving woman bustled up to one of the wounded soldiers who lay gazing at the ceiling above his cot. "Can't I do something for you, my poor fellow?" she asked, inquiringly.

"The fellow," looked up languidly. "The only thing I really wanted just at that time was my discharge and a box of cigars. When he saw the straggled and anxious look on the good woman's face, however, he felt sorry for her, and with perfect sang froid he replied: "Why, yes, you can do anything you want to." "I'd only be too glad to," gasped the visitor, eagerly. "All right," said the cavalier, gallantly, "go ahead." It was washed twenty-one times already but didn't mind going through it again if it'll make you any happier."—The Argonaut.

It is reported that a combination of the leading cigar manufacturers of Tampa, Key West and Havana's being organized.

PRESIDENT WILL ATTEND.

EVANSVILLE, Ind., Aug. 17.—Preparations for the blue and gray reunion in this city October 10 to 14 are now complete, and the affair promises to be the grandest event held in Evansville in many years. President McKinley has assured the reunion committee that he will attend, and several members of his cabinet may accompany him.

SEIZED BY FRENCH.

HONG KONG, Aug. 17.—It is reported here that the island of San Chuan has been seized by the French direct excitement prevails. San Chuan commands Hong Kong's West River trade.

MARRIED FEW HOURS.

GUTHRIE, Okla., Aug. 17.—A short honeymoon was spent here. P. V. Jobe of Pawnee and Miss Mabel Payton of Warfield, were married in the morning. In the afternoon it was noticed that the groom was under the influence of liquor, and when he retired to his room he sat down and fell asleep. The bride came no further to arouse him. When he awoke two hours later she had been to a lawyer's office and begun action for divorce.

RECIPES FOR SEASONING.

Put sugar in the water used for boiling meats of all kinds, it gives a good flavor, to vent more especially.

To give a fine flavor to corned beef hash, use good stock for moistening, with a pinch of salt, sugar and cayenne.

Three tablespoons of freshly made Japan tea, with a bit of onion, gives an indispensable flavor to an apple pie.

Boston baked beans can be improved by adding a cup of sweet cream the last hour of baking.

When making tomato soup add a new cucumber sliced fine, boil soft and strain with tomato. It gives a pleasant seasoning.

Add a cup of good clear vinegar to the water in which you boil fish, especially salt water fish.

Make snow cake with arrowroot flour; the flavor is delicious.

Small pickles, olives and capers mixed fine are an excellent seasoning for a salad dressing.

A fine seasoning for chicken salad is to slice an onion on the top of the prepared chicken and let it marinate two hours or more, adding, at the same time, a few drops of prepared horseradish. Be sure that every particle of the onion is taken from the chicken before adding the dressing.

MEANS BUSINESS.

WASHINGTON, Aug. 17.—Secretary Root has directed that four additional transports be chartered. They are the Puerto, Belgian King, Columbia and Charles F. Nelson. They can carry 2,500 men. All will be ready to sail for Manila by September 1st.

OLD CUSTOMS IN ENGLAND.

Strange Survivals of Middle Age Observances.

In Lincoln's Inn, London, a bell rings every evening at 9 o'clock. This is the curfew, derived from old French words meaning "cover the fire" and it is an order for all who live in the inn to put out their lamps and fires. Of course nobody obeys, because the law of curfew is rather out of date, considering that it was made by William the Conqueror in the year 1066 and repealed in 1110. Repealed or in force, the curfew bell was rung in West Ham in 1870, when it is rung now at Lincoln's Inn, while it is actually being revived and brought into force in some small American towns. Another funny old custom is the howling of the town crier, who goes about with a bell announcing rewards for lost dogs or horses, advertising entertainments and telling the news. You may hear the town crier any day in Dartmouth, and the little boys are not allowed to annoy him on pain of whipping. Several small English towns have not yet awakened to the fact that the middle ages are gone and that this is the end of the nineteenth century. There are determined attempts at times to revive ancient customs. In 1839 there was actually a tournament held at Eglinton castle. Young gentlemen in bull-dog plate armor tilted at each other with lances, while hosts of fashionable people sat under umbrellas and cheered them. Lady Seymour was queen of beauty and the Emperor Napoleon III. of France was among the ancient knights who jousted for her favors in the lists. It rained "cats and dogs" the whole time, the horses slipped and the knights rolled about in the mire, unable to rise again without assistance on account of the weight of their armor. The event is said to have been the most comic in all the history of England.

Why Pig Iron Is So Called.

Pig iron is so called because of the fancied resemblance of the lumps of iron when first made to a litter of pigs in the act of suckling. When the iron is produced from the ore the semi-fluid metal runs from the furnace down a straight channel in the sand, having at intervals side branches four feet in length, into which the molten mass gradually flows, finally filling them up, together with the main channel. In this condition it resembles an enormous double-sided comb, and the workmen have applied to it the name of the "sow and pigs." When broken into the lumps seen at foundries, it is known as "pig iron," and is the metal market and among dealers in it is spoken of as "pigs." The name has nothing to do with the quality of iron.

A Test of Character.

The greatest test of character is to be found in what is common rather than extraordinary. It is easier for the soldier to be faithful in the rush of battle, when sustained by a catching enthusiasm, than to maintain a high tone of consistent principle under the many trials of daily drill.—Dr. Macleod.

PILLOW NUISANCE.

San Francisco Chronicle: It is hardly likely that the pillow was invented by any one in particular. It was in the first instance, there is every reason to believe, a very rational institution, and consisted of a small pad upon which to rest the head when beds were by no means such luxurious affairs as they are today.

The pillow in use today are responsible for many evils which you may be willing to admit when they are pointed out to you and if you would test the efficacy of their disuse you would become as ardent an advocate of the custom as is the writer.

There is no greater folly than the belief that a big downy pillow conduces to restfulness and health in sleeping. You sink into its embrace and delude yourself that you are comfortable, with your head resting upon the pillow, soft, cozy mass of feathers. Yet, if the pillow slips away from you in your sleep, do you miss its seemingly soothing influence? No. And if you can sleep thus comfortably and not know it, why should you not have the courage to put it away altogether?

The pillow may seem to breathe out beautiful dreams to you, but while it is lulling your attention with its seeming restfulness it may be pushing your eyes out of shape, and it is certainly making wrinkles in your neck and deepening the hollows over your chest by forcing the head forward. It may seem a little thing in itself, but impeding every night is with you, and all the weary your neck would naturally have and unify the goods of any exercise you may take. Aside from the benefits to be derived in a shapely neck and chin, to sleep without a pillow will conduce to health and greater restfulness. It may seem strange at first, even a bit painful, but if persevered in you can very soon overcome this, and the good to be derived will well repay you.

REACH \$600,000.

POLYMER'S, O., Aug. 17.—In an investigation of the results of the day for the past 15 years it has been discovered that the books have been systematically falsified during that period. One of the experts says the loss to the city, as now known, will come up to at least \$150,000. If it increases at the present rate the total loss will approximate \$600,000. Criminal proceedings will be begun as soon as the investigation develops the guilty officials.

It was the first night of his comedy,
and, although it had fallen rather flat,
he had hopes. "What do you think of
it," he asked a friend who had just
come out. "Oh, it's all right for the
kind," returned the other, "but I don't
think the public likes that sort of a
play. It would rather have something
to make it laugh." "Make it laugh!"
roared the indignant playwright.

Observations ...at Random.

The suit brought against Judge San-
den, Marshal Collins and Officer Crow
for damages recalls to mind the let-
ter Judge Sanden received a few
months ago from a woman in upper
down in this part of the state, and
having heard that it was a bad locality
in which to wander, planted a large
cathode in his pocket and pocket
and sailed forth to do battle with a
whole regiment if necessary. He was
arrested and when the case was called
in the police court the evidence was
conclusive and he was fined and sent
to jail.

While in jail he had his head mashed
between the bars and died. His par-
ents first wrote for his suit belong-
ings, and when the pilot, his grip
and a few other things were forwarded
Judge Sanden was surprised to re-
ceive another letter, agreeing to com-
pense for \$10,000. The found father
declined with a sorrowful shake of the
head. The judge hadn't sent his poor,
guiltless son to jail, he would never
have been killed. If the judge didn't
send the money at once he would be
sued for \$50,000. Judge Sanden
handed into the marshal's office and
asked Marshal Collins for a blank
check.

"What are you in such a hurry
about?" asked the marshal.
"Why," replied the judge, showing
the letter, "the man says he wants
\$10,000, and I guess I'll have to send
it to him right away. I thought I'd
just write him a check for the amount."

This provoked a laugh, and nothing
was ever heard from the man who
made such a modest demand of Pa-
ducans.

Yours ago Sheriff Rogers was a
country boy on a farm near Massac.
When he was a "law-saver," an am-
bitious boy, he sometimes called, he once
travels came to town, and in the
case of a great many country boys,
had a good time. A laughable story
is told of how he once used the pocket
house as a race course.

One Christmas, about 30 years ago,
he came to town and found that the
customs of Paducah were different
to those of his native town. He was
in a bad way. He stored a few glasses
under his belt and hid himself out
until he was met by a negro. The
negro bumped up against him, and
he was not accustomed to be thus
treated by the descendants of those
he landed on him and the negro
went into the gutter. About that
time the city marshal, Mr. Julius Wil-
liams, came along, and told the callow
youth from the rural regions to con-
sider himself under arrest. The next
morning the marshal was following
in the path beaten by his sable pre-
decessor. The country boy hastened to
the wagon yard, and saddled his yellow
mare. He rode her down to the mar-
ket place and galloped straight through
the middle. The people scattered in
all directions, then returned to get a
chance of the daring horseman who
thus defied the minions of the law.
About this time he came along back
handed than before, and they scattered
again. Several times he rode di-
rectly through the center of the market
place, striking fire from his horses
hoofs at every step. The police ar-
rested, and making the animal jump
over a fence, the country boy on the
mare departed and could not be
overaken. As there were not so many
or so much police as there are now,
and no telephones to intercept them,
the culprit succeeded in getting out
of town and home, and it was about
four years until he came back to town
again. He told the marshal made up,
and each always enjoyed it as a good
joke on the other Sheriff Rogers
says there's nothing that makes a
country boy meaner than eating
"haws" and "pawpaw grapes,"—the
latter is drinking Christmas egg-nog.

The accident which befell a small
boy at the wharf a day or two ago
reminds me fully the dangers that
beset children in all parts of the city.
If removed from the guidance and
protection of their parents, every
day youngsters can be seen all over
the city loafing about in many places
replete with danger, as well as fraught
with bad examples. Of all places,
however, boys should be kept away
from the docks and wharves, which
seem to be favorite haunts of places
with them. At the latter place they
expose themselves frequently to the
peril of being knocked off into the
river by dock hands, or of falling off
themselves or being crushed by boats.
Parents should keep their children
at home if possible, but if they are
too much trouble they should at least
see that they do not frequent places
where they may be injured or killed.

A guileless reporter on "Little Pinkie"
yesterday discovered a wonderful es-
tablishment at Third and Washington
streets. It was about "fifteen feet deep"
and "had a cap on it," probably to
keep street cars and the street roller
from falling into it. The reporter
gave his discovery considerable prom-
inence in yesterday's paper, gush-
ing it with adjectives that smacked
of mystery, and a big scare head.
When the reporter has been in town
a little longer, however, he will per-
haps discover that there are thirty or
forty of those old cisterns in Paducah,
all still being used by the fire de-
partment when necessary. They are
all "covered by iron caps" and are
about fifteen feet deep. Chief Woods
knows where they are located, and
it looks as if there is really nothing
very remarkable in Little Pinkie's won-
derful discovery yesterday. Next thing
the reporter will be discovering the
old iron furnace on South Third street,
or a car load of post holes, or something
else equally as remarkable.

ONE HUNDRED YEARS AGO.

Merchants wrote their letters with
quill pens. Band was used to dry the
ink, as there was no blotting paper.
There were no street letter boxes;
letters had to be carried to the post-
office. It cost 18 1/2 cents to send a
letter from Boston to New York and 25
cents from Boston to Philadelphia.
Less than a century ago rain was
furnished at ministers' ordinations;

Stoves were unknown. All cooking
was done in an open fireplace.

Many of the streets were un-

bered.

Three-fourths of the books in every
library came from beyond the At-
lantic. "Who reads an American
book?" was an Englishman's sneer
of the early part of the century.

When one Virginian started on a

FEAST DAY.

Assumption of Blessed Virgin
Celebrated by Catholics.

Catholics all over the world cele-
brate the Feast of the Assumption
Tuesday. It is a holy day of obliga-
tion and must be observed by Catho-
lics as a Sunday. Solemn high mass
and a benediction were celebrated
in every Catholic church in the land.
On Assumption day the Catholics
commemorate the taking up into
heaven of the Blessed Virgin Mary.
It is the general belief among Catho-
lics, although not an article of faith
that shortly after the apostles re-
turned at Jerusalem after the death
of Christ, the Virgin Mary died and
was buried in the Garden of Gethse-
mane, and that three days later her
grave was opened by St. Thomas, and
the body was gone. From this it is
inferred that she was taken up into
heaven by God.

RAIN OF METEORS.

NEW YORK, Aug. 17.—The Morgan
Line steamer El Sud, from New York
leaves this port, ran into a specu-
lar storm south of Cape Hatteras Sat-
urday night. The rain came down
in sheets and was illuminated, as were
the seas, by vivid flashes of lightning
with the swiftness of a rapid-fire gun
battery. After the storm and rain
in clear, steady sky, there came a daz-
zling shower of meteors, like a golden
rain, apparently covering every part
of the horizon, and their glory faded
in the morning air.

2,000 DEAD

And Many Dying Daily From In-
juries and Privations.

WASHINGTON, August 17.—The
appalling conditions existing in
Porto Rico have been made more
fully known to the war department
by General Davis in a dispatch which
says the deaths outright in the island
will reach 2,000, while many are dy-
ing from injuries and privations.

General Davis adds:
"They said the very acceptable
Canned peas involve too much trans-
portation in proportion to nutrients,
but can be used near at hand, al-
though there is much destitution in
the interior and deaths are occurring
from lack of food. Will not be pos-
sible to reach those points with packs
before next week, for in many cases
the roads and trails are so destroyed
that only men on foot can get to and
from those districts. The stores
coming on McPherson will be in time,
for I am supplying most pressing
needs at all accessible points with
stores now on hand."

WAS AN AGNOSTIC.

NEW YORK, August 17.—The daugh-
ter of the late Henry M. Tabor has

of agnosticism. For many years
he was president and treasurer of the
first Presbyterian church, and the fact
that he was a believer in agnosticism
was not made known until his death.

order of Miss Tabor the plates of the
whole book have been destroyed. There
are about 1,600 copies of the book in
circulation.

CZAR CHANGES THE BIBLE

LONDON, August 17.—By command
of the czar the official Russian ver-
sion of the Bible has been changed in
some portions. The most interesting
alteration is in the text of the fifth
commandment. The emperor and his
officials are now included in this
commandment. One translation
of the Russian version reads: "Honor
thy father and thy mother, the em-
peror and his officials, that thy days
may be long," etc.

THE EDAM CHEESE.

While the Edam cheese is a familiar
visitor on the table, not every one
knows whence it comes nor how its
cannon ball proportions and gay col-
oring have been achieved. The north-
ern part of Holland is the seat of the
Edam cheese industry, and the con-
sequent cleanliness of the retail is
therefore doubly assured. In making
it the fresh milk is carefully
strained and the rennet is added. As
soon as the milk curdles the whey is
drawn off and the curd thoroughly
kneaded, is pressed into moulds. This
process is repeated until the whey
has all been extracted and the curd
is comparatively dry. It is then
wrapped in a linen cloth and kept for
ten or twelve days until quite solid.
Then the cloth is removed and the
cheese put into salt brine. Afterward
a little more dry salt is sprinkled
on the cheese, until the maker thinks
it is salt enough to insure its keep-
ing. This next put into a vessel and washed
with water and scraped to remove the
white crust. It is then carried into a
cool room and laid on shelves, where
it is frequently turned. The ripening
processes from two to three months.
The round balls growing the fine, ed-

be exported to this country are ren-
dered still more brilliant by dyeing
the rind with a vegetable coloring.

THE LATEST.

of Secretary Colburn of the state board
of agriculture, the corn crop through-
out the year will be more than 340,

has there been a crop approaching
this amount, the largest previous
year being in 1889, when the total
was 270,000,000 bushels.

THE LATEST.

In Kansas, according to the report
of Secretary Colburn of the state board
of agriculture, the corn crop through-
out the year will be more than 340,
000,000 bushels. Not for 10 years
has there been a crop approaching
this amount, the largest previous
year being in 1889, when the total
was 270,000,000 bushels.

2,000 DEAD

And Many Dying Daily From In-
juries and Privations.

WASHINGTON, August 17.—The
appalling conditions existing in
Porto Rico have been made more
fully known to the war department
by General Davis in a dispatch which
says the deaths outright in the island
will reach 2,000, while many are dy-
ing from injuries and privations.

General Davis adds:
"They said the very acceptable
Canned peas involve too much trans-
portation in proportion to nutrients,
but can be used near at hand, al-
though there is much destitution in
the interior and deaths are occurring
from lack of food. Will not be pos-
sible to reach those points with packs
before next week, for in many cases
the roads and trails are so destroyed
that only men on foot can get to and
from those districts. The stores
coming on McPherson will be in time,
for I am supplying most pressing
needs at all accessible points with
stores now on hand."

WAS AN AGNOSTIC.

NEW YORK, August 17.—The daugh-
ter of the late Henry M. Tabor has
expressed her father's book in favor
of agnosticism. For many years
he was president and treasurer of the
first Presbyterian church, and the fact
that he was a believer in agnosticism
was not made known until his death.
The late millionaire gave a half in-
terest in his book, which was entitled
"Faith or Fact," to a brother-in-law
of the late Colonel Ingersoll. As the
heirloom remained the copyright, how-
ever, he could do nothing, and by
order of Miss Tabor the plates of the
whole book have been destroyed. There
are about 1,600 copies of the book in
circulation.

CZAR CHANGES THE BIBLE

LONDON, August 17.—By command
of the czar the official Russian ver-
sion of the Bible has been changed in
some portions. The most interesting
alteration is in the text of the fifth
commandment. The emperor and his
officials are now included in this
commandment. One translation
of the Russian version reads: "Honor
thy father and thy mother, the em-
peror and his officials, that thy days
may be long," etc.

THE EDAM CHEESE.

While the Edam cheese is a familiar
visitor on the table, not every one
knows whence it comes nor how its
cannon ball proportions and gay col-
oring have been achieved. The north-
ern part of Holland is the seat of the
Edam cheese industry, and the con-
sequent cleanliness of the retail is
therefore doubly assured. In making
it the fresh milk is carefully
strained and the rennet is added. As
soon as the milk curdles the whey is
drawn off and the curd thoroughly
kneaded, is pressed into moulds. This
process is repeated until the whey
has all been extracted and the curd
is comparatively dry. It is then
wrapped in a linen cloth and kept for
ten or twelve days until quite solid.
Then the cloth is removed and the
cheese put into salt brine. Afterward
a little more dry salt is sprinkled
on the cheese, until the maker thinks
it is salt enough to insure its keep-
ing. This next put into a vessel and washed
with water and scraped to remove the
white crust. It is then carried into a
cool room and laid on shelves, where
it is frequently turned. The ripening
processes from two to three months.

LOCAL LINES.

—According to reports a man named Lilly, selling pictures, is under arrest at Salem, Livingston county, on a charge of stealing \$72.50 from a boarding house keeper at Hampton.

—The large water main at Third and Madison burst yesterday afternoon and several hours were required to repair it.

—Mr. Felix Hudson, grandfather of Dr. A. H. Hudson, of the city, who was stricken with a congestive chill day before yesterday, is reported better at his home near Westgate.

—Mayor Lang says no gravel expert was at Hoar Station inspecting gravel, sent there by him, and that he has nothing to do with the gravel at Hoar Station. The Register this morning stated that he had had an expert there to inspect the pit.

—A fellow was on the Broadway street car line this forenoon with what is known as a track watcher's bike. The machine is a regular bike for use on railroad tracks by road employees.

—Last night was delightfully cool and today has not been very unpleasant, though the sun has shone brightly all day.

—Ed Houston, colored, charged with stealing a pair of spectacles from the back of Rev. H. B. Johnston's, on North Seventh street, was tried before Judge Tully yesterday afternoon and given 30 days in the county jail.

—Yesterday the highest point reached by the mercury was 93 degrees. To day it has been very little warmer.

—Acting Overseer of the chain gang Harry Lucas is suffering from a bone taken on one hand.

—There will be an ice cream supper on the lawn at the Second Presbyterian church tonight. Everybody invited.

—The younger set enjoyed a delightful dance at the La Belle park pavilion last night. The attendance was large and until the small hours of this morning the dance was merry. The German band made music for the occasion.

—The street inspector is covering more of the street crossings with gravel and putting in drain pipes instead of culverts. The piping it has been demonstrated is too small and it is to be regretted that the size is not increased, for otherwise the improvement is not only a good but an economical one.

—Though it is hardly more than three weeks until the Democratic city primary the candidates for councilmen and school trustees are slow to come forward. There have been a number of cuts, but the responses have not been so great. The trouble seems to be the primary and the probable heavy cost to the candidates to submit their names to the people and the further uncertainty that there will not be an independent and non-partisan ticket in the field, as is the report. Many think it is folly to bring politics into a city contest anyhow and these have urged the selection of a citizens ticket as mentioned. There is promise of a lively contest no matter what may be the action of the parties or the people.

ALL A GOEBEL YARN.

No Passes Were Circulated Here for the Delegates.

The trouble men have for several days past been anxiously circulating the report that each delegate, and anyone else who desired to go to the Lexington convention, was given an envelope containing a pass, \$25 and a badge.

This proves to be all buncombe. Every delegate who went had a ticket, and the tickets were bought by the delegates at the Union depot. No passes were in circulation, and the trouble men are talking principally through their hats in giving publicity to such ridiculous rumors.

SPECIAL TRAIN.

Superintendent Harahan to Arrive in the City This Afternoon.

Theodore Bender, for disorderly conduct, was fined \$5 and costs.

Ed Smith was fined \$1 and costs for being drunk.

MR. ANNET HERE.

Assistant Superintendent of Telegraph of the Illinois Central C. F. Annet, of Chicago, arrived in the city this morning on business connected with his department. He visited the various offices, but it is understood that he was looking particularly after the removal of the dispatching office to the new site at the southern extremity of the yards.

He left at noon over the St. Louis division.

The Methodist people of our neighborhood city of Brooklyn, will dedicate their new church building Sunday, August 26, with fitting ceremonies. The steamer Geo. H. Cowling will run special trips leaving Paducah at 10 a. m. and 2 p. m. Round trip 25 cents.

IDLE STORIES.

The Sun several days since mentioned a little piece of gossip then set in the city relative to some grocer's, a wife's accidental discovery, etc. The intimation was that the story was an exaggeration. A few days subsequent it was also said in these columns that there was talk of a sensational divorce suit, but that there was no possibility of the report being true and that justice was being done innocent parties. The Sun is today in possession of all the facts in the two little stories and has the most reliable assurance that neither of them are correct in any respects. The people should be just in these matters and never cause pain to the innocent by rolling such morsels beneath their tongues.

Captain William Masson, a well known steamboat man, and Monday at his home, 5451 Maple avenue, St. Louis. The captain was 72 years old, and had been closely identified with river interests for 40 years. He was a large stockholder in the Anchor line.

The habit of sleepers cheating steam boats and railroads by inserting false weights in the scales of loading is a matter of complaint in some ports. The law imposes a heavy fine upon any one who shall be found guilty of such offense. For the benefit of the shipping public it might be well to call their attention to the law in reference to this matter, for it is quite evident that the shippers do not realize the danger in which they place themselves. We give the law below.

"Any person and any officer or agent of any corporation or company who shall deliver property for transportation to any common carrier, subject to the provisions of this act, or for whom as consignee or consignee any such carrier shall transport property, who shall knowingly and wilfully, by false weighing, false representation of the contents of packages, or false report of weight, or by any other device or means, whether with or without the consent or connivance of the carrier, its agent or agents, obstruct transportation for such property at less than the regular rates then established and in force on the line of transportation, shall be deemed guilty of fraud, which is hereby declared to be a misdemeanor, and shall, upon conviction, thereof, in any court of the United States of competent jurisdiction within the district in which such offense was committed, be subjected for each offense to a fine not exceeding \$5,000 or imprisonment in the penitentiary for a term not exceeding two years, or both, in the discretion of the court."

Mayor Lang stated this morning that the committee in whose hands the Worton proposition was left for investigation, will report against making the appropriation for the gravel. Mr. Worton asks only that two streets be graveled, he agreeing to grade them and deed the property to the city.

The committee will make its report at the meeting of the council Monday night.

HAND PAINFULLY MASHED.

P. H. Pitter Hurt at the Marine Ways Yesterday.

Mr. P. H. Pitter, of 321 South Third street, had his hand painfully mashed yesterday afternoon while at work on the marine ways. The injury was caused by Mrs. Boyd and Sanders, and will disable him for some little time.

I. C. HOSPITAL.

There Are Now Thirty-five Patients in It.

There are 35 Illinois Central employees in the railroad hospital here, most of them ill from malaria, and few of them laid up by injuries. There are always few injuries at this time of the year.

Last month there were at least 84 patients in the hospital, quite a large number, with no deaths.

MARRIAGE LAST NIGHT.

Mr. George W. Gates and Miss Nora Ellis Married.

Mr. George W. Gates, a car builder for the N. C. and St. L., and Mrs. Nora Ellis, both well known young people, were married last night at 7 o'clock by Rev. Taylor, of the Second Presbyterian church, the ceremony being performed at the home of Mr. Oliver Smith, 301 South Fourth street.

THE GRIPS RECOVERED.

Isaac Dixon, a Union City negro, last night agreed to carry two grips belonging to Mr. C. A. Porter, of Jackson Mich., from the C. C. yards, where they got off a freight train, to the Palmer House. He failed to show up, however, and Chief Hoyer was complained to. The negro was found and arrested, but claimed he didn't know the way to the Palmer. He was released.

A. A. Simmons and others deed property in county to W. N. Simmons.

SEWERAGE CAVE IN.

The sewerage contractors have struck another snag. Yesterday afternoon about 50 feet of their ditch caved in on South Third, near Jackson, entailing considerable delay, as well as causing a loss of thirty or forty dollars. The accident was due to the quality of the soil, which is a large fill, and not very firm.
